

1865.

NEW SOUTH WALES.

AUSTRALIAN MUSEUM.

(REPORT FROM TRUSTEES.)

Presented to both Houses of Parliament, by Command.

REPORT OF THE TRUSTEES OF THE AUSTRALIAN MUSEUM, FOR THE  
YEAR ENDING 31 DECEMBER, 1864.

To HIS EXCELLENCY THE GOVERNOR-IN-CHIEF.  
&c., &c., &c.

1. The Trustees of the Australian Museum have the honor to submit to your Excellency this their Eleventh Annual Report.

2. The Museum has been open to the public daily (Sundays excepted) during the past year, and has been visited by 61,391 persons.

3. The system of exchanging specimens of natural history with the principal Foreign Museums is still maintained by the Trustees, who have received several valuable collections during the past year, a list of which is appended. (*Appendix No. 2.*)

4. Numerous donations have been received during the year, a list of which is appended. (*Appendix No. 3.*)

5. In Appendix No. 4, will be found a list of the various objects sent in exchange, together with the names of the persons or institutions to which they have been transmitted.

6. Several valuable works, purchased out of the Endowment Fund, have been added to the Museum Library, a list of which is appended. (*Appendix No. 5.*)

7. Two experienced Taxidermists have been occupied during the year in preparing and mounting the following specimens :—

34 mammals,  
226 birds,  
62 reptiles and fishes, and  
12 skeletons of mammals and birds,

and in cleaning and preserving from decay the collections already displayed for public inspection.

8. A catalogue of the specimens in the Museum has been commenced, and the first part, comprising the mammals, has been published; this catalogue is sold at 6d. a copy, which price barely suffices to cover the expenses of printing. The Trustees propose to continue this catalogue, as soon as the funds at their disposal shall enable them to do so.

9. The Trustees having been informed by the Honorable the Colonial Secretary, in a letter dated April 28, 1864, "that the office of curator should be left in the hands "of the Trustees," passed the following resolution at their next monthly meeting, which took place on the 5th of May, 1864, viz.:—"That the present Acting Curator of the "Australian Museum be appointed Curator, with a salary of £500 per annum, and that "application be made to the Government to place a sum, equal to the unappropriated "portion of the vote of £700, upon the yearly Estimates, as an additional endowment,

"in order to recover the arrears of work caused by the long vacancy in the Curatorship." This being notified to the Government, a reply was received from the Honorable the Colonial Secretary, 30th June, 1864, stating "that His Excellency the Governor, with the advice of the Executive Council, had been pleased to approve of the appointment, by the Trustees of the Australian Museum, of Mr. Gerard Krefft, to be Curator of that institution."

10. An Assistant Curator, of considerable practical experience, has been appointed, who takes an active part in the arrangement of the collection, and occasionally travels in search of objects of natural history; a very large and highly valuable collection, comprising many new genera and species, has thus been brought together, a list of which is appended. (*Appendix No. 6.*)

11. All the available space in the Museum is now filled up, and many valuable specimens, which the Trustees have lately received, are of necessity stowed away, and cannot be exhibited.

12. Appendix No. 1 contains an abstract of the receipts and payments of the Trustees on behalf of the Museum, for the year ending 31st December, 1864.

13. Appendix No. 2 contains a list of the specimens received in exchange from other Museums.

14. Appendix No. 3 contains a list of the various donations during the year, with the names of the donors.

15. Appendix No. 4 contains a list of the specimens sent in exchange to various persons and institutions.

16. Appendix No. 5 contains a list of the books purchased for the Museum Library.

17. Appendix No. 6 contains a list of the specimens collected by Mr. George Masters, the Assistant Curator, from June, 1861, to December, 1861.

18. The Trustees have the honor to submit this their Report for the year 1864.

and in testimony thereof, have caused their corporate Seal to be hereunto affixed, this  
2nd day of March, 1865.

By order of the Trustees, (L.S.) E. DEAS THOMSON,  
GERARD KREFFT, Chairman.  
Curator and Secretary.
