Note Book

FOR

PEN & PENCIL
WRITING,

26

1d.

Edgar R Waite
The Museum
Leeds, 1891

Aug 22 to Nov 8.

Book No 26.

22. (continued) - I then
made for the Director's
house again as I had
not met him, he gave
me some spirit for my
spiders when I continued
my parade through the
gardens, Nice Ant Eater
Several Talking Gracula
One the keeper cannot
understand as it speaks
in English, as it was
noon time it did not
favor me, I left the
gardens about 2.45 &
had dinner at a
Cafe then to the Post
Office at 3.0 I found

the telegram from S.
"will arrive Rotterdam
2.30 Simpson." Half
an hour before I
called I at once went
down to the "Herengat"
& found he had been
asked for me, being
told that I should call
about 3.0 he had waited
about & I soon came
up with him, we had
a walk together & I
picked up a hairy cat-
-pillar he then went
to his hotel to dinner
I went to mine for
tea & took the bag

down to the boat & met
Simpson again at 6.30
Trotted round once more
bought some cigars &
at the last moment I
got a Cigar case for
W^m Simpson let me
have a bottle of Eau
d' Cologne which he had
bought in that town.
We were under weigh
about 8.10 & steamed
out of the Mass in the
dark, about 10. after
being clear of land
we turned in, the sea
was very high & the
boat pitched tremendously

23. I did not sleep
very well, the great
roll on the water & the
consequent occasional
exposure of the screw
sent a racket thro'
the ship and as the
berths were quite in
the stern we had a
lively time of it
Once or twice I felt
very queer, And the
steward told me my
friend was bad in
deck - this is by far
the worst sea I have
ever been out in and
I once or twice thought

that my previous immu-
-nity from Sea Sick-
-ness was not to be
maintained, thinking
my berth the safest
place for to tell the
truth I felt afraid
I did not leave it
until 12:00 when we
were passing Spurn
Point. The heavy sea
had greatly delayed
us so that instead
of reaching Hull at
1:30 we were not
there until 3:0 and
the water too low
for us to go near

shore, the Customs
came aboard & a
boat was also near
them cadging for
passengers. The ship
would not be able
to touch the pier
until after 5 and
as the train left
Hull at 4:40 we
went ashore in the
small boat, a porter
took our things to
the Station Hotel as
Simpson was going
to stay in Hull over
- night & going on to
Bristol tomorrow

I went to see Mr^s
Bell who lost her
husband a week ago -
Returned to the Hotel
met Simpson at 4:15
and left Hull at 4:40
There was a gunny
fellow in my carriage
J. Sutcliffe Barnsley
who said that he had
just landed from
London by boat and
had had a terrible
time. Only 4 out of
26 passengers having
escaped the Mal de
Mare - At Selby we
had 1½ hours to

wait so we went
into the town together
had tea at the "George"
& "visited" service at
the Minister, left at
6.55, My companion
leaving me at Mill-
ford Junction for
Normanton I landed
at Leeds at 8.45 being
23 minutes late was
met by Rose & Father
took train home.

List of presents.

Album for Rose -

China for Mrs Bowley

Perse for Mrs Waite

Cuff Stud for Father

Eau de Cologne for Belle
Cigar Case + Cigars for Wm
Cigars for Major Green
Knife for James -
Photo frames for Alice
Bird troughs and 2
China men for Self
When at Hull I sent
off post cards to my
Uncle Banks + to Miss
Bowling informing
them of my arrival.

24. At the museum again
a pile of letters is
awaiting me. First
one from Clarke to
say that an attempt
was being made at

the Edinburgh Museum
to raise the vacant post
to an Assistantship this
would extend the limit
of age to 35 & the Salary
would be £125 + £30
for evening attendance
making £10 per year to
£250 + £30. I looked up
the Civil Service guide
& found the Conditions of
Examination at London
& Dublin to be:—

Preliminary. Fee £1.
Handwriting - Orthography
English Composition.
Arithmetic (incl. Vulgar &
Decimal fractions and

translation from Latin
or French or German -
Competitive Fee £5

Obligatory.

1. Elem Mathematics (viz:
Arith: Eucl: Bks. 1-4
Algebra (incl simple equat^{ns})

2 & 3. Any 2 of following -

Chemistry — 750

Physics — 750

Zoology — 500

Botany — 500

Geol & Mineralogy. — 500

Physiology — 500

Drawing. — 500.

No candidate will be
eligible who is not com-
petent in Obligatory subjects
& must pass in Zoology. [12]

Optional

Higher Mathematics (Pure) -	1000
Theoretical Mechanics -	500
Applied do -	500
French -	500
German -	500
Italian -	400
Latin -	400
Greek -	400
English History -	400

I answered Clarke's letter
and told ^{him} that I would
reply in a day or two.

Next a post card from
Miss Bowling, asking
me to lunch at 1.0

I accepted the invitation
& took her the piece

of China. 3. A letter
from Mason of Alford
dated 4th inst with
a Sparrowhawk, this
James had Skinned.

4. Letter from Simms
of Ballymena asking
me to send the Twite
to him (I had sent
it on April 24. to
Patterston & wrote to
Simms to that effect.

The other letters referred
to Y. N. U. or Phil. Soc.

Saw "Zoologist" for
August & found my
note on Albino Twite
printed

Found that one of my
Pipits had died during
my absence, I found
the door open, and the
Bullfinch + Brambling
out in the large aviary
the latter appeared to
be dying and had a
large wound in its -
side.

25 Took the Cigar Case
for Wm to Lennox to
have his name placed
on it. Roebuck called,
he had just been away
in Swaledale brought me
proof of "Hayburn loyke"
to read over. Went to

kirks for Father & took
him 3 field glasses to
try. Sent Cigar Case to Wm
26. wrote to Miss Bowling
also to Clarke to say
I could pass a "pass"
Exam but not a com-
petitive one. At night
I made a stand for
my excess books and
then took Rose out for
a walk terminating at
Chadwicks where we met
Watmough. and spent
the remainder of the
evening. As they were
going to the Baths at
5.0 tomorrow and as

I had a ticket left over from 1887 I arranged to go with them. Furnell called to day and I arranged to give him Saturday afternoon for a demonstration in Photography.

27. At 5.0 I went with Loatmough to the baths as arranged, he invited me to spend next Wed. evening at his house -

28. Commenced to make some drawings for my diary on the Continent when rewritten.

29 Received 10/- from the

Seeds Mercury in respect
of contribution of report
of Hayburn Lyke Excursion.
Atkinson the Curate at
Hunslet formerly of
Knaresbro' called and
asked me for a lecture
in December for some
Institution or other. As
this would be an in-
-centive to write a
new lecture I gave
him for a title
"Animals' Clothes". At
1.0 Gurnell called and
we went to the Queen's
Restaurant where we
met Foster as arranged

had dinner and then
took Beeston Hill Bus
to Furnell's new lodgings
Coupland St, Afterwards
we walked to Middleton
Wood & took some photo
returned had tea and
developed them, Not
very satisfactory. Spent
the remainder of the
evening at German re.
Landed home at 10.30
30. In the morning went
down to Museum to
take weather observations
Took Rose to Kirkstall
Church at night.

31. Saw Ernst at noon &

asked him to go to
Headingley and take
Bofinger with him
tomorrow night. As
Father had told me
that Leasdale had
called to see me I
visited him in the
evening on my way
home, I found Miss
Goodall there, had tea
*Spent the evening with
them, he gave me a
Circular relating to
Hall's resignation &
asked me to forward it
to Clarke. I did not get
away until nearly 11-0

Sep. 1. wrote to Clarke
re Edinburgh post &
enclosed the circular -

Miss Bowling & W^m

who had just returned
from Goathland called
& asked me to take
Rose to tea some day
we fixed Saturday.

Mrs Bowling gave me
a letter for R. In the
evening Ernst came
up according to ar-
rangement.

2 Saw Emil Schmit &
took him round the
Museum, he invited
me to take tea with

him on the 9th. Saw
Miall who has just
returned from his
holidays at Runswick
& the B A at Cardiff.
Spent the evening to-
gether with Chadwick
at Whatmough's.

3. Mr. Paul called and
brought me a specimen
of *Marmia maura* from
Knarabro' lent to
Simpson's at night he
lent me "pictures from
the German Fatherland".

4. Spent my spare time
as I have done for
the last day or two

in drawing in pen &
ink, bits from my
Continental Note Books.

5. Father received a letter
from Scotland saying
that a pheasant, a
Cross between Reeves &
Silver would be sent
off to-day to arrive in
Leeds at 8.5.5 pm. Took
Lore down to Bowling
to tea at 4.0. At 8.45
Lore went to the Station
with me to meet the
8.55 train, it did not
come in until nearly
10.0 we then took the
bird to Fallowfield &

found W. Hall. There
we (Rose + I) did not
leave until after
12:00 & carried the bird
home when I put it
into the aviary.

6. Took the weather
observations in morning
(Sunday.) A head ache
which I had yesterday
has developed into
Neuralgia.

7. Received a further
communication from
Clarke, it is still
doubtful whether the
Assistantship will be
created but if so the

regulations will be
very different from
those before mentioned

Preliminary Fee. 10/-

Handwriting Orthography

Arithmetic (incl Vulgar

Decimal fractions)

Translation from Latin

or French or German.

Competitive Fee 10/-

Zoology. Obligatory.

Optional Any 3 of the
following.

Chemistry inorganic

do Organic

Physics (Heat Light Sound

Electricity Magnetism)

Botany

Geology + Mineralogy
Elem: Pure Mathematics
.. Applied

Mechan: Drawing incl
Plane + Solid Practical
Geometrical Perspective
Freehand Model drawing
Industrial Arts

Any 2 of Art Handbooks
which Dept may select.

8 Neuralgia too severe to do
any work taking Quinine

9. Called on E. Schmitz.
at 36 Springfield Pl.
as arranged but
found he was not
in (5.15) he had
it seems expected

me last night - The
Neuralgia nearly
drove me mad.

10. Better to day I
wrote to Clarke &
told him I would
go in for the Exam
if the post was
created, asked him to
send me Selenstea
& give me permission
to speak to Miles.
Bought "Materials" for
translation into German
by Otto at Miles' 4²
At 2.30 Visited Mr.
W. H. Thorp who gave
me some insight into

"Etching" - 20 day
is the hottest of the
Year Max 82° On
July 11th 80° was recorded
Schmitz called and
as there had been
some mistake asked
me to tea tomorrow

11. Went to Schmitz
as arranged & spent
the evening with him.
Miss Bowling called.

12 Took Rose down at
2.30 to Fallowfield Let.
to see the Rifle Sports
did not leave until 11.0

13 to Ramsden and self
met W^m at Headingley

Station at 9.40 and
all went on by train
to Pool. A glorious day
Max temp: at Leeds
80°. Crossing the Wharfe
I saw a Noctule flying
about in the sunshine
& catching flies like
a swallow. One of these
birds frequently flew
quite close to the bat
evidently not knowing
what to make of such
a strange creature.

We walked up the
Washburn, Lyth Bank
to Hopper Lane where
we arrived about 2.0

Had a good dinner
at the inn and then
through Rubberhouses
& over the moor to
Ben Rhydding, On our
way we struck one
of those diabolical
implements, a pole-
-trap & left it dangling
down for the keeper
to swear over. Saw
several Coveys of
Grouse. Coming near
to Denton we saw
many Pheasants, they
were as tame as
Barn door fowls &
ran about the road

We crossed the wharfe
again by Wryvill's
hay bridge. and
left Ben Rhydding
by train at 7.13

I had left my cloth
cap which I had
had with me round
Germany & Austria
somewhere on the
moors & consequently
had to go home -

Capless. Sent copy
of Verto: of Ainsty
& "Distribution Map"
to Paul Matschie at
Berlin Museum.

14. Had tea and Spent evening with Roebuck. Letter from Clarke asking me to "Bide a wee". Bought 'German Reader' from Symington H^d.

15 Received Selenska from Clarke Spent evening with Rose at Mr. & Mrs Wigglesworth's

16 Paul Matschie ack^d receipt of my letter This is the ~~de~~ first day I have been free from Neuralgia I recommenced to draw my Continental Sketches in pen and ink.

17. Left Leeds at 9.0
with Birch for Don-
-caster Arrived there
I met Roebuck &
other members of
Y. N. V. R and Self
went off together
to Wadworth Wood,
found *T. taeneatus*
& *T. cristatus* in a
dried up but moist
quarry under stones.
Also *Oecypris oleus*,
Meconema varia.

Also visited Edlington
Wood # One of the
Members gave me a
Pipistrelle dead, Saw
large party of Jays.
Left at 7.40, and
arrived at Leeds at
8.52.

18. Digging for worms
for my newts and
leeches I found a
Lestacella in the
garden No doubt
of the same species
which I obtained
in the same spot
in the garden
years ago. This I

had given to
Marsh and heard
nothing more of it
Roebuck has often
asked me about
it, so on finding
this one the first
I have seen since
the one before
mentioned, I searched
further & found 2
or 3 more, cleaned
one in water and
made notes & sketches
of it - Father who
is in Southampton
sent me a *Cossus*
larva - took it

to white to weight
3 dwt. 1 Scr: On
giving it something
to bite I could
easily lift it from
the ground, I also
weighed the Pipistrelle
1 dr: 1 Scr: 6 grs —

Made a drawing of
Cossus at night.

19. Preserved the Cossus.

wrote Kendall & gave
him Tuesday or Thursday
to spend the night with
me. Gave Roebuck one
of the Testacella. In
the afternoon I took
Rose to Adel & called

on Irvine

20 Sunday. Wet all day. Drew & partly coloured - Emberring a miliaria from one of my skins. Wrote report of Hedwera Excursion. Completed the 26th Drawing with pen & ink,

21. Gave Roebuck a note on the Noctule flying in sunshine at Pool on the 13th. - Kendal called and told me he would stay with me on Thursday night - In the evening

I attended meeting
~~22~~ Council meeting of
Seeds Nat Club, I
undertook to name &
label the Collection
of Bird Skins & Eggs.
Might expend up to
10/—

22. Had a chat with
Prebuck, he suggested
taking me on as Co-
Editor of the Naturalist
in 1892.

23. Ernst spent the
evening with me
at Headingley. Husband
told me there was a
meeting of the Conversaz.

Committee on the 25th
and asked me to take
my holiday sketches
down.

24 W^m Kendall spent
the evening with me
the latter stayed over
night.

25. Conversazione Committee
L. P. Lit Soc: attended
at 4.0.

26 went to dinner at
Fallowfield and at 2.10
W^m + Self set off to
walk through to Knaresbro'
we went through Follifoot
& arrived at 6.35 ~

27. Had a walk into
Scriven Park, gave chase
to a Squirrel which when
it ran along the ground
reminded me of a
Stoat as previous ones
had done. Mr. Paul
gave me examples of
Dorsibrauchiates which
he had collected at
Filey. Aunt asked me
to take Rose some day
and we fixed the 17th
as I had received a
letter from W. Harrison
asking me to go over
soon. I thought I
might manage both

during the same visit
we fixed the 17. Oct.
28 left 'Marebro' at
8.7 for Leeds. Saw
Harrison at Harrogate
Station. In the
evening I attended
Nat: Club meeting
and also Council
Meeting.

29. Manden came
up at night to
see the Pheasants &
and also Aaron
Hartley to discuss
the question of
making diagrams to
illustrate his patent

for various "fixings"
30 Made Sketches
for the drawings at
night. heard that
Potter had some
Caterpillars so I
called to see them
found them to be
Orgyia pudibundi
feeding on hop -

Oct 1. Received list
of spiders taken at
Edlington from E
Howarth Sheffield.
replied and asked
if I sent him my
Rotterdam spiders
if he would try

to identify them
for me. Arranged
with Rev Geo Eays.
to make remarks
on Dec 12 in the
Museum before some
of his Literary and
Debating Society's
members.

2 At 4:0 I attended
meeting of the Convers.
Committee. At night
I went on to Scott's
returning Lord Lilford's
Birds Nos 8 & 16 and
borrowed Nos 11 & 14

3 Lent a specimen of
my Rotterdam Spider

to Howard. My Lufdolf's
son brought to me
and asked me to
"stuff" for him an
immature Herring
Gull which he had
caught in Woodhouse
Lane, before opening
it out I said it
must have escaped
from Captivity & I
found the last joint
of the wing as I
had suspected, missing.
Atkinson called and
we fixed date of my
animals' clothes for
Dec. 18th

In the afternoon I
took Rose to the
Reformatory. They had
kept a ~~Sixer~~ juvenens
for me it was caught
in the window on
the 6th Sep. I met
at the Reformatory
Mr. Powdland A Collector
of I.R. of London who
has been doing duty
in Leeds lately, he
is specially interested
in Archeology. Mr.
Twigg lent me "Leggs
& Longs" by Theodore
Wood and "Literature
and Dogma." by

Matthew Arnold.

Sent the before mentioned gull to Loten.

4. Received notice from Linnean Soc: of my second year's subscription £3. due 24 May last. Opened box containing eggs which I supposed were Testacellas and most of them had hatched but I could not find the young. I opened an unhatched egg and it contained a young slug about $\frac{1}{4}$ inch long of a whitish translucent

colour, certainly a
Testaceella. Spent all
this (Sunday) morning
in drawing a Turnstone
mostly from my mounted
example. In afternoon
I took Rose out for
a walk to Meadowood
past King Alfred's
Mound and saw
a man lining linnets
he had placed his
decoys under a Sol-
itary bush on which
were stuffed linnets &
the whole bush was
bristling with lined
twigs. he had caught

Several birds.

5. In the evening I
attended meeting of
Leeds Nat Club at
Phil: Hall - Smithells
on "foul air". Asked
Armitage to make me
~~to~~ oak frames like
those in which the
Fieldfare and Hoopoe
are now mounted. I
received a letter from
W Harrison asking me
to go over to Wilstrop
very soon.

6. Saw the Sep and
Oct numbers of the
Zoologist and in

the former was a
note from Weir
drawing attention to
my note on Albino
Swites and saying
that I had evidently
not seen the birds
alive and that I
had doubtless assumed
that they had pink
eyes. he then went
on to say he was a
judge at Bird Shows
& his experience was
that the Albinos had
pink eyes. The Editor
(Hartung) drew attention
to the fact that the

birds he mentioned
were domestic and
therefore not to be
referred as albinos -
he further gave some
examples of pink-
eyed albinos under
his own notice. There
was not notice of
the matter in the
Oct Number. I ordered
the Aug & Sep parts.
Spent all the evening
in writing to the
director of the
following Zoological
Gardens asking them
to examine the

eyes of any Abbeios
they might have
& let me know the
result. viz.

| London - Dublin.

| Hamburg. Berlin.

| Köln | Rotterdam

| Amsterdam -

I also wrote to
Sumner of Ballymena
& asked him to let
me have a note to
verify the pink eyes
of the Twites. Dr
Edison called to see
me with reference
to ~~the~~ notice that
I should exhibit

a^r Carnivorous Slug^r
at the meeting of
the Conchological Socy
he told me that
his gardener had
recently found a
Slug at Adel which
had a worm in
its interior, he would
not believe this
until he saw the
before mentioned
announcement when
he came to see me
about it and would
if possible obtain
an example for
me to exhibit —

along with mine
(Testacella).

7. In the evening I
exhibited the eggs
young & adult of my
Testacella at the
meeting of the Con-
chological Society.

8 Commenced to make
negatives for my
lecture on Animals'
clothes. Received a
letter from A D Bartlett
re Albinos. Letter from
Mr Paul re my journey
to Scarb'ro' replied said
he could meet Ruebuck
& self at York and I

would probably spend
Sunday with him at
Punswick Bay. Received
the 6 frames + mounted
Hawfinch, Corn Bunting
+ Turnstone. At 4:0 I
attended Phil: Loez's
Conversazione Committee
meeting. In the evening
I made a charcoal
Sketch of Rose, to be
work up in Crayon -
Bought the following
books in the Market
"Rough Shooting".

10 Received ^{Oct} letter from
Linnus re Albino
Twite. Bought Aug:
& Sep: numbers of the
'Zoologist' - 1/- each
also Hauffs' - " Das
Wirthshaus in Speesart
(Beaus) 2/8 - Bought 50
Charged cartridges for
walking-stick gun 2/-
At 1.35 I left Leeds
with Roebuck, Mr. Paul
joined us at York &
we arrived at Scarbro'
at 3.40 Roebuck & I
then went on to the
Museum and met the
Scarbro' made arrangements

for the V.H.U. Meeting
I then called to see
the Blands and joined
Roebuck at Chapmans
where we had tea.
here I left Roebuck &
at 7.15 took train
for Hinderwell, on
passing Peak station
I had a word with
the station master about
the Turtle Dove etc. &
arrived at Hinderwell
at I walked on
to Runswick Bay Hotel
where I found Mr
Paul.

11. Wet day. Up at

at 6.30 went down
to the beach and
Northward, we returned
to breakfast, after
which we again
set off to the beach
this time going
down the coast as
far as Kettleers Nab
hammering out
Belemnites and a
few Ammonites from
the lias beds, the
former were very
numerous but were
invariably split
into 2 or 3 pieces
along the cleavage

lives. There were
several Cormorants
flying about the
Bay. innumerable
Jackdaws & Linnets
and I also saw a
Redshank and a Ring
Plover but could
not get within the
walking-stick gun's
distance. * The rain
was miserable all
day long. At 4:00
we returned to the
hotel to dinner &
I spent the evening
in reading - "Das
Wirthshaus im Spessart
* Found a dead * putrid Porpoise

which I had fortunately taken with me.

12. Walked to Hinderwell Station & left at 8.37
Arrived Scarbro' 10.9
here I telegraphed to
Museum to say I
should land at 1.20
Left Scarbro' at 10.15
arrived York 11.30 where
Mr Paul left me
for Tharvestro' Arrived
at Leeds at 1.30.
At 8.0 I attended
the first German
Class of the Session
at the College. -

Advanced Section.

13 Received letter from Clarke saying that the Department would not raise the vacant post to an Assistantship. Consequently I am shut out in that connection, Also a letter from Rotterdam re Albino - At night I made a Crayon drawing of Rose, not very successful.

14. Letters from Hamburg & Amsterdam re the Albino. Wrote Carter re Seed Gravel. Ass⁴

Spent the evening
in writing part of
the report of the
V.N.W. Meeting at
Edlington (Doncastel)
15. In the evening I
took Rose to opening
meeting of winter
session of Leeds Frols
Ass^y wrote to Harrison
& told him I should not
go to Wilstrop on Sat;
wrote Mrs Paul

16. At 4.0 I attended
Conservation Committee of
Phil Soc. My offer to
exhibit my drawings of
Birds was accepted & I

was asked to undertake
the entire decoration of the
building. Wrote a further
instalment of the YHU
Edlington report.

17 left Leeds at 12.8 &
picked up Rose at
Headingley. We went
forward to Tharston &
to Mr & Mrs Paul's house
to stay until Monday
After dinner we had
a walk through Scriven
& the Park.

18. A 'wettish' day. After
breakfast we went to
take the temperature
of the Nidd Prolonged

our walk along the
Harrogate Road. Saw
a party of Marsh Tits
firing at what I
took to be one on-
I shot an *S tuberculata*
(with Catapult), At night
just before supper I
went out alone in
the dark night had
a lonely walk through
Sewden Park.

19 Left Tnaresbro' at
9.45. Lost leaving the
train at Harrogate.
Fortune met me a
Harrogate with Y U U
Report as I had asked

him. - Backhouse
called and asked
me to draw a new
wader he had got
(I had promised to
draw him something)
Miss Bowling and Wm
called and asked me
to tea tomorrow. I
received a letter from
Zool: Gartens Köln
giving me no news
but advising me to
write to Dresden. At
8.0 I attended the
College German Class.
So wrote to Zool Gard.
Dresden re Albinos.

Went to Fallowfield to tea & spent the evening there.

23 Meeting of Conversazione Committee. 4.0. Letter from A Keighley asking me to lend him photo of Tiger.

24. Took Rose to Saturday night concert at "Mechanics"
- Hall played Flute, Sykes Mandolin &c but the thing of the evening was Grimshaw's El Escribano.
We met Miss Bowley & W^m at 3 Horse Shoes at 3.0 walked round by Meanwood & then down

to head had tea & went
to Concert together.

25. Painted the sixth
bird - a Ringed Plover -

26. Sent slide of Tigris
to A. Keighley attended
German Class Everett
also attended - Bartlett

~~27~~ Sent me a "Field" Con-
-taining a note on Albinos

27. My second Pipit died
to-day. At night I
took Rose to the Con-
versazione of the Phil:
Soc: And glad I am
that it is all over -

"So is in Girl, and
in night in the night."

Letter from J J Stead
asking me about
lecturers.

28. Received letter and
Book from Dresden
Zool. gardens. Spent
the evening at Mrs
Wigglesworths. Roebuck
told me that Hobbs
would see us tomorrow.

29 Received Naturalia novitates
from Friedländer, they
have put in Vertebrates
of western Austy #1-50
Roebuck called on me
at 5.0 & after discussing
Y.N.U. business we went
to Conservative Club

where Hobkirk entertained us to tea, we then went through all our work. Stayed until 8.30

30. Designed a cover for the 'Naturalist' and attended to the programme of Annual Meeting.

31 Sent my sketch of the cover to Raebuck who left early this morning on a visit to Clarke at Edinburgh! Took Rose for a walk in the afternoon by Horsforth etc.

Nov. 1. Wrote to Frarham
at San Jose. - Had
a stroll in afternoon
with Rose & took her
& Belle to St Chad's at
night.

2. German Class at the
College -

3. Phil: Soc: Lecture.

Maile gave his B.A
address. Some difficulties
in the life of insects.

My Condenser cracked.

Now spending my spare
time in writing lecture
on "Animals' clothes"

4. Took Rose to lecture
on Life Struggle in Nature

by Hy Crowther Curator
of Museum & - Royal
Cornwall Poly: Institⁿ

I saw him before the
lecture as he was
formerly an Assistant
at Leeds & he promised
to visit me tomorrow.

5. Received second letter
from Simms re Albino
Tort & saying that
Patterson was going to
write something on the
subject. I saw the
Nov: number of the
Zool: it contains a
number of letters on the
subject. Wrote to the

Editor of the Zool: &
asked him to reserve
me space in the Dec.
number for reply. I
also wrote to Zoos at
Berlin & Vienna for
information re Albinos.
Wrote Bartlett & told him
that I would submit my
reply, to him as I was
quoting his note in the
"Field". Spent noon with
Boeckh writing the YMU
Annual Report. Crowther
called & I showed him
round the Museum.

Mr & Mrs Banks and also
Mr Paul called to see me

Spent noon with Roebuck
as yesterday.

7. Made negatives from 2
prints for Annual Clothes
At 1.0 I went to the
Queens and dined with
Gurnell. Then to the
Arts & Crafts Exhibition
Rose came down and
I left her with Gurnell
while I attended. The
Y.N.U. Executive meeting
at 3.30. Stead asked
me for a lecture to
correspond with a series
like the Gilchrist. I
promised him one
fee £3. 3. 0

At the meeting they
unanimously resolved
to recommend my
election a joint Editor
of the Naturalist. We
rose about 5:30 when
I returned to the Ex-
hibition for Rose. I
wrote Mr Bland & told
him I should go to
Scarbro' on Friday next
and asked him to put
me up for the night.

8. Sunday - Made lantern
slides from all the
negatives I had taken
for the lecture. At
1.30 Rose & I started

for a walk, going
through Adel to Ecouf
Reservoir site, now as
before, empty they are
making an immense
saddle trench parallel
to the present existing
but faulty one. and
4 enormous pumps are
at work clearing it of
water. We then struck
across to the Arthington
side past a farm and
when a mile or just
walking under shelter
of a hedge a flock of
13 Barnacle geese flew
almost over our heads

not more than 15
yards away, suddenly
catching sight of as
one or two of them
gave vent to a startled
cry & the whole went
over in a S.W. direction.
large flock of snipe
about. Next we went
on to Creekell wood
& saw some Bullfinches
going through the wood
we struck the Arthington
Road & learning that
there was no train
until 8.0 we made
for home and passed
through Secup Village

and close by Adel
dam past Adel
Church and arrived
at Headingley at
6.15 having been
on the tramp the
whole time & nothing
to eat. Not many
girls would have
done this! When I
got home I learned
that a hen pheasant
had been seen about
the garden. I caught
a hen golden pheasant
in the garden some
time ago now alive
in the aviary.

Hairy Caterpillar & Nettle

The Hairs on (say)

the articles raise the body
some distance from the
stinging organs of the
