Environment Matters

***Surviving Australia* exhibition self-guided program**

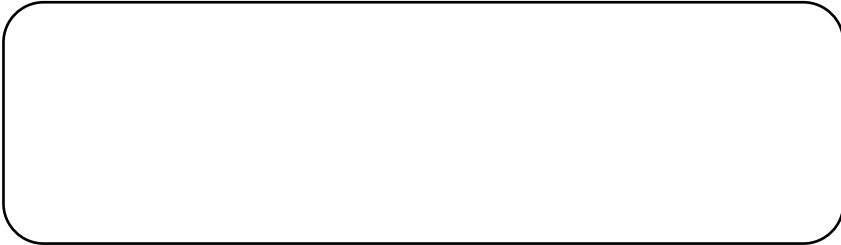

Stage 3 Student Activity

Name:

Surviving Australia is an exhibition about Australia's unique landscape, the animals that once lived in it and those that continue to survive.

Before you begin...

What do you think are the reasons why some animals became extinct? Add to your list as you go through the exhibition.

List some fast facts about the following extinct animals.

Diprotodon

Thylacoleo

Thylacene

Sketch an animal (any animal from *Adapt or Die*) and **label** its adaptive features.
