1903.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

AUSTRALIAN MUSEUM.

(REPORT OF THE TRUSTEES FOR THE YEAR 1902)

Presented to Parliament pursuant to Act 17 Vic. No. 2, sec. 9.

[*Printed under No.* 1 *Report from Printing Committee*, 9 *July*, 1903.]

To HIS EXCELLENCY THE GOVERNOR,—

The Trustees of the Australian Museum have the honour to submit to your Excellency their Forty-ninth Annual Report.

1. There have been no changes in the membership of the Board during the year.

2. Parliament having voted funds for the engagement of a second Mechanical Assistant to the Curator, Mr. Alan McCulloch was appointed to the post.

3. The Museum continued open to visitors during the usual hours, viz., from 2 to 5 p.m. on Sundays, and from 10 a.m. to 5 p.m. on all week-days, except Mondays, which were reserved for cleaning purposes; but on Monday afternoons the collections were, as usual, accessible to students and schools for teaching purposes, on application being made to the Curator. The total number of visitors recorded is 147,290, showing a decrease of 19,386 for the year. The average was 404 (469 the previous year) on week-days, and 780 (834 the previous year) on Sundays. The largest attendance on any one day occurred on the 8th October, when 2,252 persons entered the building.

4. The Trustees again regret to have to call attention to the statement made in last year's Report, viz., that "The ordinary income available for the general purposes of the Institution has remained, practically, at the same figure as in former years, an amount far from sufficient to enable the Trustees to keep the Australian Museum in a state of efficiency." In consequence of the incessant activity of European Governments and wealthy British collectors in purchasing objects of natural history in Australasia, it becomes, from year to year, more and more difficult for this Museum, with the means available, to maintain its position as the leading scientific institution of its kind in the Commonwealth.

With the concurrence of the Minister for Public Instruction, the Museum estimates were re-arranged and simplified, all the salaries being now voted by Parliament, the maintenance charges paid from the endowment, and some necessary expenses voted as contingencies.

5. The acquision of specimens continues to be dependent mainly on donations, supplemented by small purchases, by exchanges with other museums and with private collectors, and by collections, the result of voluntary efforts on the part of members of the Museum staff and correspondents. Details of the number of specimens so acquired will be found in Appendix IV.

The Curator having had an opportunity of accompanying Professor T. W. E. David and Mr. E. F. Pittman, Government Geologist, with the authority of the Board, on a visit to the country around Yass, for the purpose of geologically examining the neighbourhood, the result was the acquisition of fossil organic remains new to the Museum collection.

6. In the recently-erected portion of the new south wing cases have been erected, as far as the sum voted by Parliament would allow, for the reception of the ethnological collection, and some of the cases from the old Ethnological Hall have been re-erected temporarily therein. The ethnological collection has been re-arranged to the best possible advantage in the upper half gallery of this wing. The Trustees have already, in last year's Report, called attention to the fact that the old Ethnological Hall has been condemned as a structure, and was ready to be pulled down, but, so far, no attempt has been made to remove it. No further permanent progress can be made with the arrangement of the collections, nor can the galleries in this wing be properly utilised, until these necessary extensions and improvements have been effected.

7. The additions to the library number 409 volumes, besides pamphlets and unbound parts of periodicals. A list of these is given in Appendix VII.

8. The preparation of the new addition of Mr. J. A. North's work "Nests and Eggs of Birds found breeding in Australia and Tasmania" has been continued. The second part was issued in April.

9. The Museum publications issued during the year were :—

"Records of the Australian Museum," Vol. IV, Parts 5, 6, 7.

"Memoirs of the Australian Museum," Vol. IV (Results of the "Thetis" Trawling Expedition), Parts 4, 5.

"Special Catalogue," Vol. I, Part 2.

A full list of the Museum Publications will be found in Appendix VI.

10. The following Appendices are attached to this Report, viz. :—

I. Statement of Receipts and Expenditure.
II. Attendance of the Trustees.
III. Attendance of Visitors and Summary for fifteen years.
IV. Return of specimens acquired.
V. Return of information supplied to the Public.
VI. Publications of the Australian Museum.
VII. Additions to the Library.
VIII. List of the Museum Staff.

The Common Seal of the Museum was hereunto fixed, by Order of the Board, this thirteenth day of March, 1903.

(L.S.) JAMES C. COX, M.D.,
Chairman.

S. SINCLAIR,
Secretary.

APPENDIX V.

RETURN OF INFORMATION SUPPLIED TO THE PUBLIC, 1902.

Name.	Details.	Name.	Details.
Berry School of Arts	Determining specimens (fossils and minerals)	Mr. James Glasson	*Re* Dutch form of trade clay pipe.
Mr. H. Blakeney	*Re* nests of *Origma rubricata*; and *Geocichla lunulata*.	Mr. A. Grant	Determination of lizard (*Ablepharus boutoni*).
Staff-surgeon G. G. Borrett.	Method of suspension of Palu Hook.	Mr. T. D. Grover	Microscopical examinations of volcanic dust.
Mr. H. H. B. Bradley, jun.	Determining Araneidæ.	Mr. N. V. Hall	Determining Coleoptera.
Miss K. Brewster	Determining various fossils.	Health Department	Examination and determination of *Pulicidæ*; determination of bugs (*Cimex lectuaris*, Linn.) found infesting rats; also observations on their life-history, and information as to other animals parasitised by *C. lectuaris* (Bed Bug) and other species of the genus *Cimex*; *Re* fleas, *Pulex irritans*, *P. serraticeps* and *Typhlopsylla musculi*.
Mr. and Mrs. Oscar Burrows.	Explaining Museum specimens and methods.		
Messrs. James Bell & Co.	Investigating plague of mites, *Rhizoglphus feculæ*, infesting granary; suggestions as to remedies to be applied; inspecting premises; examining samples of wheat and fodder and reporting thereon.		
Mr. J. J. Casey	Identification of medals by J. Dassier, of prominent Reformers of the Reformation Period.	Mr. J. Hearn	Identification of flying mouse (*Acrobates pygmaeus*).
		Miss Hunter	Examination of black sand from Byron Bay.
City Health Officer	*Re* literature on fleas and displaying micro-slides.	Mr. T. R. Icely	*Re* fleas, and displaying same under microscope.
Hon. Dr. J. M. Creed	Determination of tinstone in gneisen; determination of "Glass containing white specks."	Mr. David Ireland	Determination of Clay.
		Mr. A. E. Ivatt	Ornithological cabinet and exhibit collections.
Mr. W. A. Cuneo	Making qualitative analysis of specimen of Mispickel; examination of micaceous shale with plant remains.	Dr. Sydney Jamieson	*Re* the biting powers of *Myriopoda*.
		Mr. S. J. Johnston	Determining Australian Arachnida.
Mr. John Darcy	*Re* "Blow Flies," their life history, and propagation; also literature dealing with the same.	Dr. T. P. Lucas	Displaying Australian lepidoptera (cabinet collection).
		Dr. C. McLaurin	About Blue Pointer and Grey Nurse Sharks.
		Mr. Madell	Determination of specimens.
Mr. J. A. Dobie	*Re* spurious spade half-guinea (2nd issue) of George III.	Mr. S. F. Mann	Cabinet ornithological and oological collections.
Mr. John E. Dodds	Determination of Hydrous Aluminium Oxide.	Mr. A. McLaclan	Determination of specimen, supposed to be Ambergris.
Mr. B. Dunstan	Explaining methods of library arrangement.	Dr. John Macpherson	Determining collection of snakes.
		Dr. P. H. Metcalfe and Mr. G. E. Nobbs.	Exhibiting cabinet ornithological and oological collections; as to collecting and preserving Fishes.
Messrs. Eastway Bros.	Identification of fœtal sharks (*Hemiscyllium modestum*).		
Mr. Hans Ebner	Determining birds.	Miss A. Norton and Friends.	Ornithological cabinet collection.
Mr. W. Eauerbach	Identification of obsidian from Normanby Island.	Miss E. Peir	Determining Net Ball Fungus (*Clathrus gracile*).
Mr. F. C. W. Elzard	*Re* the haunts and habits of the "Corella" or Long-billed Cockatoo (*Liemetis nasica*).	Mr. W. F. Petterd	Exhibiting collections of minerals.
		Mr. T. Phillips	Determination of specimen of Calcite.
Messrs. Engelbrecht and Mountjoy.	*Re* habits and behaviour of Thresher Shark.	Mr. G. H. Pickett	*Re Orthorhinus cylindrirostris* life-history.
		Mr. H. Poole	Examination of supposed ambergris.
Evening News	As to size of turtles.	Mr. Pratt	*Re* Marine Aquaria and literature thereon.
Dr. R. L. Faithful	Determining and pricing British, Indian, French, and Belgian coins.	Mr. B. Ridding	Determination of specimen of Green Epidote.
		Mr. J. Ringrose	Determination of an egg-shaped piece of Carbonate of Lime.
Fisheries Department	*Re* aquatic dipterous larvæ (*Tipulidæ*).		
Mr. G. H. Fitzhardinge	Particulars as to the name of Unios (Australian) and occurrence of Pearls.	Mrs. Rohu	Determining Paradesia.
		Mr. H. Rosales	Exhibiting specimens of Noumeaite and Garnierite; information on some rock-forming and rare minerals.
Mrs. H. Forde	Determining argillaceous sandstone; displaying Australian lepidoptera and original drawings of Scott's "Lepidoptera."	Mr. J. H. Rowntree	Displaying cabinet collections of Australian *Phopalocera* and *Heterocera*; also collection of life-histories of same.
Mr. H. V. Foster	*Re* ornithological and oological cabinet collections.	Mr. Aug. Rudder	*Re* snakes and lizards.
Mr. Albert Gale	Number of Ova deposited by various fishes.	Mr. G. Savidge	*Re* Ornithological and oological collections.

Name.	Details.	Name.	Details.
Mr. A. J. Shearsby ...	Determining upper silurian fossils from the Yass district.	Dr. A. J. Vause	Determination of iron pyrites in shale nodule.
Dr. Henry Sinclair ...	Exhibiting ornithological cabinet collection	Mr. J. Vernon	Explaining supposed aboriginal markings on stone slabs, road from Walcha to *Nowendoc*.
Mr. T. G. Sloane	Exhibiting cabinet collection of Australian *Carabidæ*.		
Captain A. Spain	Opinion as to cause of deformity in fish.	Mr. H. W. Walker ...	*Re* collecting Australian birds.
Mr. C. Stafford	*Re* Stibio-tantalite occurring in the alluvial tin of Greenbushes (W.A.).	Mr. A. J. Walkom ...	Determination of silurian shell from Molong.
Mr. W. Stalker.....	*Re* Mammals of Queensland and New Guinea.	Mr. J. R. Wall	Determination of snake (*Diemenia psammophis*) ; determination of lizards.
Miss Stephen.....	Exhibiting ornithological cabinet collections.	Mr. G. A. Waterhouse	Literature dealing with Australian lepidoptera.
Mr. H. M. Tarrant ...	Instruction in collecting and preparation of material.	Mr. R. A. Wearne ...	Determination of a collection of small pebbles consisting of quartz, camelian, agate, jasper, chalcedony and lydian stone.
Technological Museum (Curator).	Identification of reptilian vertebrata, probably *Plesiosaurus sutherlandi*, McCoy.		
Town and Country Journal (Editor).	Numerous replies to correspondents on various subjects.	Mr. O. E. White	Exhibiting collection of minerals.
Mr. Tregear	*Re* ore Deposits in South Africa.	Mr. John Wyatt	Determination of five English coins.
Mr. R. Turner	Displaying cabinet collection of Australian *Rhopalocera* and books.	Mr. G. Young	Determination of Roman coins.
