

1867.

NEW SOUTH WALES.

AUSTRALIAN MUSEUM.

(REPORT FROM TRUSTEES.)

Presented to Parliament, pursuant to Act 17 Vict., No. 2, sec. 9.

REPORT OF THE TRUSTEES OF THE AUSTRALIAN MUSEUM, FOR THE
YEAR ENDING 31 DECEMBER, 1866.

To HIS EXCELLENCY THE GOVERNOR-IN-CHIEF.

&c., &c., &c.

1. The Trustees of the Australian Museum have the honor to submit to your Excellency this their Thirteenth Annual Report.

2. The Museum has been open to the public daily (Sundays excepted) during the past year, and has been visited by 79,961 persons.

3. The system of exchanging specimens of natural history with the principal Foreign Museums is still maintained by the Trustees, who have received several valuable collections during the past year, a list of which is appended. (*Appendix No. 2.*)

4. Numerous donations have been received during the year, a list of which is appended. (*Appendix No. 3.*)

5. In Appendix No. 4 will be found a list of the various objects sent in exchange, together with the names of the recipients.

6. Several valuable works, purchased out of the Endowment Fund, have been added to the Museum Library, a list of which is appended. (*Appendix No. 5.*)

7. Three experienced Taxidermists have been occupied during the year in preparing and mounting the following specimens:—

32 mammals,

298 birds,

34 reptiles,

28 skeletons of mammals and birds,—

and in cleaning and preserving from decay the collection already displayed for public inspection.

8. The Trustees have to record the resignation, as a Member of the Board, of Alexander Walker Scott, Esq., M.A.

9. The Trustees have to report that the first edition of their Catalogue is out of print, and that a second enlarged edition is urgently required; and as the Endowment Fund is much encroached upon already for the purchase of the necessary books and periodicals, they are not in a position to proceed with the printing. Under these circumstances, the Trustees recommend that application be made to the Government to have the Catalogue printed at the Government Printing Office.

10. The Trustees have to acknowledge the liberal provision made by the Legislature for the completion of the new wing. The building will be ready within a short period for the reception of specimens, and the Trustees will lose no time in procuring the necessary cabinets, so far as may be practicable with the amount which has been voted for the purpose.

11. Mr. George Masters, the Assistant Curator, has visited Western Australia, and collected a large number of valuable specimens, whereby the fauna of the West Coast is now well represented in the Museum. A list of the collections thus made during the year is appended. (*Appendix No. 6.*)

12. Appendix No. 1 contains an abstract of the receipts and payments of the Trustees on behalf of the Museum, for the year ending 31st December, 1866.

13. Appendix No. 2 contains a list of the specimens received in exchange.

14. Appendix No. 3 contains a list of the various donations during the year, with the names of the donors.

15. Appendix No. 4 contains a list of the specimens sent in exchange to various persons and institutions.

16. Appendix No. 5 contains a list of the books purchased for the Museum Library.

17. Appendix No. 6 contains a list of the specimens collected by Mr. George Masters, Assistant Curator.

18. The Trustees have the honor to submit this their Report for the year 1866; and in testimony thereof, have caused their corporate Seal to be hereunto affixed, this 6th day of June, 1867.

(L.S.)

E. DEAS THOMSON,
Crown Trustee and Chairman.
