

1894.

(SECOND SESSION.)

NEW SOUTH WALES.

AUSTRALIAN MUSEUM.

(REPORT OF TRUSTEES FOR THE YEAR 1893.)

Presented to Parliament pursuant to Act 17 Vic. No. 2, sec. 9.

To HIS EXCELLENCE THE GOVERNOR AND EXECUTIVE COUNCIL,—

The Trustees of the Australian Museum have the honor to submit to Your Excellency their Fortieth Annual Report.

1. The Museum has been opened to the public, daily, except on Mondays when it was closed for cleaning. In former years the hours of admission of visitors were from 10 a.m. to 5 p.m. in winter and 6 p.m. in summer, but the attendance by the public after 5 p.m. was so small that it was decided to close at 5 p.m. all the year round. On ordinary week-days the number of visitors was 81,551, being an average of 311 per day, and the largest attendance was on Monday, 2nd October (public holiday) when 1,862 persons entered the building. On Sundays, when the hours of opening were from 2 to 5 p.m. there were 30,776 visitors, an average of 581, while the largest number on any one Sunday was 856 on 2nd July. The total number of persons who visited the Institution during the year shows a decrease of 18,374 on the previous year. On Monday afternoons the Museum although closed to the public has been accessible to students and schools for teaching purposes, but a limited number only have availed themselves of the privilege.

2. On account of the diminution of the income of the Museum the acquisition of specimens has been curtailed. The most important purchases were a Collection of Aboriginal Implements from Northern Australia, the Rev. Archdeacon King's Collection comprising typical specimens of Coleoptera and other valuable specimens. By exchange some fossils and casts were received from the Museo de la Plata, and a collection illustrative of the Ethnology of the Sandwich Islands from the Bernice Pauahi Bishop Museum, Honolulu. The most valuable presentations were two Bactrian Camels presented by Abdul Wade.

3. The work of fitting up the New Geological Hall and Galleries has been steadily carried on. The cases erected in position are now awaiting the necessary shelving for the reception of specimens. The cost of the additions and alterations to the building during the year was £12,000 and of the cases £3,000, but the sum of £400 is still required for the completion of the work.

4. At the commencement of the year there were thirty-three officers and workmen on the staff, but owing to the necessity for retrenchment twelve of these were discharged, and the salaries of most of the others were reduced by amounts varying from £5 to £50. The amount voted for the ordinary service of the Museum in 1892 was £7,150, while in 1893 it was reduced to £3,862. It will be difficult to carry on the Institution efficiently out of the reduced vote.

5. On account of serious illness an extended leave of absence was granted to the Curator, Dr. E. P. Ramsay, and the Trustees, having through the courtesy of the Hon. the Minister for Mines, been able to avail themselves of the services of Mr. R. Etheridge, Junr., that gentleman was appointed Acting-Curator, and efficiently discharged the duties of his office during Dr. Ramsay's absence.

6.

6—A

2,945 copies—Approximate Cost of Printing (labour and material), £41 17s. 0d.

6. The following publications have been issued :—

Catalogue of Marine Shells, by J. Brazier, Part 3, Gasteropoda (Murex).

Australian Lepidoptera and their Transformations, by the late A. W. Scott; edited and revised by Mr. A. S. Olliff and Mrs. Forde, Vol. II, part 4.

Records of the Australian Museum, Vol. II, Nos. 4 and 5.

Catalogue of Pamphlets in the Library.

7. Professor T. P. Anderson Stuart having resigned his Trusteeship in the beginning of the year, Jas. R. Hill, Esq., was elected in his place, and Professor J. T. Wilson was elected in place of the late Robert Hunt, Esq.

8. Full information with respect to the Museum will be found in the Appendices attached to this Report, viz.:—

I.—Curator's Report.

II.—Statement of Receipts and Expenditure.

III.—Attendance of Visitors.

IV.—Attendance of the Trustees.

V.—Donations of Specimens to the Museum.

VI.—Exchanges.

VII.—Additions to the Library.

VIII.—Publications of the Australian Museum.

The Common Seal of the Museum was hereunto affixed by order of the Board, this 5th day of June, 1894.

(Signed) JAMES C. COX, M.D.,
Chairman.

(L.S.)

(Signed) S. SINCLAIR,
Secretary.

APPENDIX I.
CURATOR'S REPORT FOR 1893.

To the Trustees of the Australian Museum,—
Gentlemen,

The erection of the additions to the old wing, now known as the Geological Hall, and Galleries having been completed, as mentioned in last year's Report, the work of erecting cases has been pushed forward, and has occupied the greater part of the year. The cases are now completed, but have not yet been fitted with the necessary shelving and furniture for the reception of specimens, the vote having been exhausted. The Government has been asked for further funds, and when these are available a short time will suffice to complete the internal fittings, when the work of arranging the specimens for exhibition will be commenced.

The Government retrenchment scheme has caused the Museum to suffer severely; there have been no funds to purchase specimens nor to publish the results of investigation. On account of the very large portion of the staff, whose services were necessarily dispensed with, the time of those remaining in the employment of the Trustees has been devoted to the care of the collections, rather than to purely scientific work. In the parts of the Museum open to the public, there are not hands enough now to keep the outside of the cases free from dust, although the specimens in them are duly cared for, and are in good order; the windows have not been properly cleaned for months, and the grounds are being overrun with weeds.

The members of the staff have attended to their duties faithfully. We have lost the services of Mr. John Brazier, Assistant in Conchology, and of Mr. G. H. Barrow, Artist. It has been necessary also to dispense with the Cadets, whose engagement was reported in my last Annual Report. The staff has, however, been strengthened by the arrival of Mr. Edgar R. Waite, appointed Assistant in Zoology at the end of 1892.

The following is a list of the Museum staff at the beginning and the end of the year:—

No. at beginning of year.	No. at end of year 1893.	Name and Office.
1	1	E. P. Ramsay, Curator.
2	2	S. Sinclair, Secretary.
3	3	R. Etheridge, Assistant in Palaeontology.
4	J. Brazier Conchology.
5	4	T. Whitelegge " Marine Invertebrata (exclusive of Mollusca).
6	5	F. A. A. Skuse " Entomology.
7	6	A. J. North " Ornithology, &c.
8	7	T. Cooksey " Mineralogy.
9	8	E. R. Waite " Vertebrate Zoology (exclusive of Ornithology).
10	9	C. Hedley " Conchology.
11	G. H. Barrow, Artist and Draftsman.
12	10	Henry Barnes, Articulator, Modeller, and Photographer.
13	11	J. A. Thorpe, Taxidermist.
14	12	Robert Barnes, Carpenter.
15	13	B. Lucas, Assistant Carpenter.
16	14	Henry Barnes, Junr., Assistant Articulator, &c.
17	15	W. H. Hill, Clerk.
18	C. H. Wickham, Junior Clerk.
19	16	M. O'Grady, Attendant.
20	17	R. Hillsdon "
21	J. Williams "
22	W. Cornick "
23	F. Kippax "
24	18	R. Grant "
25	C. Harris "
26	19	Mrs. Dashwood "
27	20	Mrs. Lovell "
28	J. Hanbidge, Messenger.
29	E. Rohde, Cadet.
30	T. B. Air "
31	J. Sharkey "
32	B. Lucas, Labourer.
33	21	S. Long, Night Watchman.

During the greater part of the year I was absent on account of ill-health, and I thank the Trustees for the leave of absence and kind consideration extended to me. Mr. R. Etheridge, Junr., was appointed Acting-Curator, and he has most efficiently performed the duties appertaining to the office during what must have been a very trying time. On my return to duty I found the Museum and its contents in good order.

I submit herewith details of the work done in the Departments, based on the reports of the various Officers to me.

I have, &c.,

ED. P. RAMSAY,
Curator.

MAMMALS (*Mr. Edgar R. Waite*).

As previously mentioned, the foreign mammals are not exhibited in consequence of the structural alterations, but an attempt has been made to reinstate some of the animals, and the monkeys have been temporarily placed in a series of unoccupied cases in the Bird room. During

During the year the mammals obtained have been as follows:—

By purchase...	19
By exchange	35
By presentation	59
Total	59

The Trustees of the Zoological Society of New South Wales have been liberal donors, and a small collection of Queensland mammals have been received from Mr. D. Le Souef.

REPTILES AND BATRACHIANS (Mr. Edgar R. Waite).

The specimens registered for the year have been acquired as follows:—

By purchase...	7
By " (alive)	4
By collection	11
By presentation	151
Total	173

The largest individual donor was Mr. C. J. McMaster, who presented a large number of reptiles obtained in the neighbourhood of Moree.

Under the heading "Notes on Australian Typhlopidae," Mr. Waite has published in the Museum "Records" the first results of his examination of this group.

FISHES (Mr. Edgar R. Waite).

The fishes registered during the year were obtained as follows:—

By purchase...	53
By collection	10
From old collection...	4
By exchange	2
By presentation	43
Total	112

The purchases were chiefly from Lord Howe Island, and among them were several species not previously obtained there. Nearly all the examples collected were obtained by Mr. Whitelegge at Jervis Bay.

SKELETONS (Mr. Edgar R. Waite).

With the exception of the exchanges, nearly all the preparations were made by the Museum Articulator.

By purchase...	21
From old collection...	2
By exchange	20
By presentation	19
Total	62

The chief exchanges have been with the Museo de La Plata, and the Tasmanian Museum.

BIRDS (Mr. A. J. North).

The specimens of Birds, Nests, and Eggs determined and registered have been as follows:—

By purchase...	68
By collection	83
By exchange	111
By presentation	400
From old collection	952
Total	1,614

Of the above only 680 were acquired during 1893; the small number being due to the discontinuance of collecting expeditions, and the stoppage of purchases during the latter part of the year, in consequence of which the duplicate collection required for the purpose of exchange with other museums is practically exhausted as regards the number of species it contains. The remainder of the specimens determined and registered are from the Old Collection, principally the Australian and Foreign Oological Collections.

The principal acquisitions consist of:—A collection of South American birds, all of which are new to the Museum, received in exchange from the Director of the Museo de la Plata, Buenos Ayres; a number of New Zealand birds, received partly by purchase and partly by exchange, among which are—*Eudyptes pachyrhynchus*, *E. antipodum*, *E. filholi*, and *Nestor notabilis*, previously unrepresented in the collection; several specimens of *Phoenicopterus roseus*, presented by the Trustees of the Zoological Society of New South Wales; and a specimen of *Crex crex*, presented by Mr. H. Newcombe, which was shot at Randwick, and previously unrecorded from Australia. To the Oological Collection, the chief addition was the type specimen of the egg of Queen Victoria's Rifle bird, *Ptiloris victoriae*, received in exchange.

During the year the Group Collection, which shows the life history of our Australian birds at a glance, as far as it is possible to do so, has been augmented by eighteen groups, with nests and eggs or young; and a number of specimens from the old collection have been restored, named, and placed in the new wall cases at the south end of the gallery. The Foreign Collection of birds' eggs has been added to, rearranged in separate boxes, and named; and both the Australian and Foreign Collections have been registered. A number of tickets in the Ornithological Gallery have been renewed. Mr. North has contributed to the "Records" the following papers:—

1. On a specimen of *Crex crex*, shot at Randwick, New South Wales.
2. Description of a New Species of Parrakeet, of the genus *Platycercus*, from North-west Australia.

MOLLUSCA

MOLLUSCA—(Mr. C. Hedley).

At the commencement of the year Mr. Brazier was engaged in writing part of the "Catalogue of the Marine Shells of Australia and Tasmania." The usual routine work of conserving the collections and of receiving the additions to it also engaged his attention. When half the year had elapsed his services were lost to the Institution, through retrenchment of the income, and the charge of the whole of the mollusca was then temporarily deputed to Mr. Hedley. This officer completed arranging a collection of *Pelecypoda*, referred to last year, which was then laid out in the Upper Hall. He was afterwards instructed to select all the Australian Bivalves from the various collections, and to name and mount a representative series for display in the new gallery. This work approached completion at the close of the year.

Numerous inquiries on conchological subjects have been answered, and specimens named, for the public.

Part III of the "Catalogue of the Marine Shells of Australia and Tasmania" was completed by Mr. Brazier before his retirement from the Service. Mr. Hedley's official papers during 1893 were:—

1. *Pholas obturamentum*, an undescribed Bivalve from Sydney Harbour. Published, with a plate, in the "Records."
2. Description of *Cæcum amputatum*, an undescribed Mollusc from Sydney Harbour. To be published, with a figure, in the "Proceedings of the Linnean Society of New South Wales."
3. Report on Mollusca collected in Queensland by D. Le Souef. To be published, with a figure, in the "Proceedings of the Field Naturalist's Club of Victoria."

The increase of the collection has been unusually large. Messrs. Suter and Murdoch have liberally contributed rarities from New Zealand. Mr. Le Souef presented the type of a new Australian *Papuina*; while some rare South Australian Bivalves were obtained by exchange from Dr. Verco.

The Scientific Staff have frequently contributed the conchological results of holiday excursions. The additions registered were acquired as under:—

By presentation (145 species)	744
By exchange (57 species)	284
By purchase (160 species)	1,516
Total	2,544

INSECTS (Mr. F. A. A. Skuse).

The additions to the Insect Collection for the year exceed 4,000 specimens. These have been individually named and registered, and were acquired as follows:—

By purchase...	3,004
By exchange	295
By presentation	681
By collection	156
Total	4,136

Among the purchases must be mentioned the large collection of Coleoptera accumulated by the Rev. R. L. King, containing 3,000 specimens, and approximately representing 422 species. A large number are the actual types, and form a very valuable acquisition. Included in the collection is also a set of 141 mounted slides for the microscope, being for the most part preparations of type specimens. A scarce beetle, belonging to the genus *Sagra*, from North Queensland, has also been purchased; and a collection of European Locustidae and Blattidae, and another of Foreign Hymenoptera, were received in exchange. A collection of Assam Lepidoptera, consisting of 160 specimens (representing 63 species), was also received in exchange from Mr. S. E. Peal.

A very great amount of time and care has necessarily been bestowed upon the preservation of the Insect Collections, in keeping them free from depredation and in good order. The selection and mounting of specimens for future exhibition is still being proceeded with.

There has been published in the "Records," by Mr. Skuse,—Description of *Stephanocircus dasyuri*, with Notes of some other Insect Parasites known in Australia.

MARINE INVERTEBRATA—EXCLUSIVE OF MOLLUSCA (Mr. T. Whitelegge).

The numbers of specimens received and registered are represented as follows:—

Ascidians	2	collected.
Polyzoa	106	purchased.
Vermes	9	presented.
"	2	collected.
Crustacea	41	presented.
"	1	purchased.
"	700	collected.
Echinodermata	41	presented.
"	16	collected.
"	21	exchanged.
"	1	purchased.
Coelenterata	9	presented.
"	2	purchased.
"	60	collected.
Total	1,011	

Among the more notable additions may be mentioned a collection of mounted slides of Polyzoa (Australian), obtained by purchase, and a large number of specimens collected by Mr. Whitelegge at Jervis Bay. During

During the year a large collection of sponges, presented by Mr. Bracebridge Wilson, in the year 1885, has been identified, registered, and placed on exhibition. A series of microscopical slides has been prepared from the sponges, with the view of aiding in the determination of species in the future.

A considerable portion of Mr. Whitelegge's time has been devoted to the care of the collections preserved in spirits, and in preparing specimens for exhibition in the new gallery.

ETHNOLOGICAL, NUMISMATICAL, AND HISTORICAL COLLECTIONS (*Mr. A. J. North*).

During the year the following specimens have been received and registered:—

By purchase	417
By exchange	2
By presentation	79
From old collection	3
Total	501

The principal addition to the Ethnological Collection consists of a number of Australian Aboriginal weapons and interesting articles used by the natives in their tribal operations and rites, from Central Australia and Queensland, purchased, but which, from the overcrowded state of the cases in the Ethnological Gallery, referred to in last year's Report, have to be stored; specimens from New Guinea, presented by the Rev. W. G. Lawes and Dr. J. C. Cox; a fishing-line, from King's Sound, N.W. Australia, made from human hair, presented by Mr. E. C. Hedges; a dao used by the Nagas of Upper Assam, presented by Mr. S. E. Peal; and portions of flint spear-heads from Lake Huron, North America, presented by Miss Nisbet.

Only two Numismatic and four Historical specimens have been received. The former consist of a bronze medal, struck in commemoration of the visit of His Imperial Majesty the German Emperor, William the Second, to the City of London, on the 10th of July, 1891, presented by the Corporation of the City of London; and tracings of New South Wales paper and silver currency from 1812 to 1814, presented by C. P. Hyman, Esq. The principal Historical specimen received was a photograph of relics from the Dutch vessel "Zeewyk," wrecked on Houtman's Abrolhos, Western Australia, in 1727, presented by Sir John Forrest, Premier of Western Australia.

PALEONTOLOGY (*Mr. R. Etheridge, Junr.*)

The specimens registered during 1893 were acquired as follows:—

By purchase...	75
By collection (old)	4
By exchange	97
By presentation (partly old)	281
From old collection...	761
Total	1,218

The collections still remain inaccessible to the public in consequence of the non-completion of the cases for their reception. The return of Palaeontological work would have been much greater had it not been for other and more important duties undertaken by Mr. Etheridge, and referred to elsewhere in this Report.

The most important presentations consist of a collection of Upper Silurian fossils from Lilydale, Victoria, and Eocene fossils from Table Cape, Tasmania, by Mr. J. Hinder, and Silurian fossils from Tasmania, by Mr. A. Montgomery, Government Geologist of Tasmania.

The chief exchange consisted of Triassic, plant-remains from Bacchus Marsh, Victoria, Upper Silurian fossils from Kilmore, Victoria, and Devonian fish from Mansfield, Victoria, with Mr. G. Sweet.

Those portions of the Old Collection registered consisted chiefly of Siluro-Devonian fossils from the Cave Limestones of New South Wales, whilst the most important purchases comprised plaster reproductions of typical forms from Brueckani & Co., London.

MINERALOGY (*Dr. T. Cooksey*).

The specimens registered during 1893 were obtained as follows:—

By purchase...	44
By presentation	94
By exchange	3
By collection	6
From old collection...	2,484
Total	2,631

The purchases consist of a second instalment of minerals from the Tasmanian Museum, among which were received two good specimens of Anglesite, and Topaz in matrix, and two very fine specimens of Cerussite and Crocoisite from the Tasmanian mines.

The labels of the minerals in the exhibition cases have been entirely renewed, and the contents of four cases on the ground-floor replaced by others. One of these cases has been utilised for the purpose of showing, as far as space would allow, the physical properties of minerals.

Twenty-five specimens have been sent away in exchange.

LIBRARY (*Mr. S. Sinclair, Librarian*).

Owing to the shortness of the Staff, the Librarian has not been able to spare much time from his Secretarial duties towards the completion of the Library Catalogue. A first instalment has, however, been printed in the form of a list of the Pamphlets in the Museum.

The additions to the Library during 1893 are 71 volumes purchased, and 220 volumes received by presentation or exchange, besides a large number of unbound pamphlets and parts of periodical publications.

Do	1	Umbrella aurantia.
Mr. R. Murdoch	4	Amphipeplea. ampulla var.
Do	10	globosa.
Do	9	Potamopyrgus corolla.
Do	20	do cumingianus.
Do	9	Endodonta pilula.
Do	7	Schizoglossa novoseelandica.
Do	2	Endodonta granum.
Do	5	do bianca.
Do	2	do pilula.
Do	2	Laoma ariel.
Do	3	Pholas similis.
Do	4	Endodonta anguiculus.
Do	3	Janella bitentaculata.
Sir W. Macgregor	Collected from British New Guinea.	Potamopyrgus buccinoides.
Mr. G. B. Pritchard	20	Nautilus pompilius.
Mr. R. Rickards	4	Nautili	Papuina cerea.
Mr. D. Le Souef	1	Neritina variegata.
Do	2	Unio depressus.
Do	1	Bulinus pectorosus.
Do	2	do var. pyramidata.
Do	1	Melania denisoniensis.
Do	9	do balonnensis.
Do	8	Nerita lineata.
Do	1	Littorina scabra.
Do	2	do undulata.
Do	2	Vertagus obeliscus.
Do	1	Ricinula marginatula.
Do	1	Nassa coronata.
Do	1	Tapes variegata.
Mr. H. Suter	7	Charopa pseudocoma.
Do	5	Gundlachia sp.
Do	6	Ancylus tasmanicus.
Professor R. Tate	3	Gundlachia petterdi.
Mr. T. Whitelegge	1	Flabellina ianthina.
Do	5	Plocamphoris imperialis.
Do	1	Doris arbatus.
Do	3	Casella atromarginata.
Do	1	Nautilus pompilius.
Do	Eggs of	Sepia apama.
Do	20	Elyzia australis.
INSECTA.			
<i>Lepidoptera.</i>			
Mr. W. Ambrose	1	Silk Moth (Indian)	Attacus cynthia.
Mr. G. H. Barrow	1	Swift Moth	Perissectus australasiae.
Mr. H. Butler	1	Larva of Hawk Moth	Macrosila casuarinae.
Mr. W. A. Cuneo	1	Chrysalis	Danais sp.
Dr. Bell	1	Wood Moth	Endoxyla liturata.
Mr. H. J. Broughton	1	Caterpillar of Moth	Chelepteryx collesi.
Master A. Blake	1	Silk Moth	Antheraea eucalypti.
Mr. W. W. Carpenter	1	do (Indian)	Attacus cynthia.
Mr. W. Day	1	Larva of Wood Moth	Pielus sp.
Mr. T. Eagle	1	Caterpillar of Moth	Chelepteryx collesi.
Mr. E. Elgar	1	Larva of Hawk Moth	Chaerocampa sp.
Mrs. A. Frazer	15	Specimens of Samoan Rhopalocera	
Do	100	do do Lepidoptera	
Mr. W. D. Filmer	20	Larva Cases	Pychidae.
Mr. R. Grant	1	Moth	Hypochroma sp.
Do	1	Hawk Moth	Macrosila casuarinae.
Do	1	Emerald Moth	Lycoreias bipunctifera.
Do	2	Moths	Hydrusa annulata.
Do	1	Meal Moth	Asopis farinalis.
Do	1	Scirpophaga patulella.
Mr. E. J. Godfrey	1	Hawk Moth	Cæquosa triangularis.
Mr. F. W. P. Haine	1	Moth and Pupa Case	Papilio sarpdon.
Mr. J. A. Hamson	1	Swallow Tail	Cæquosa australasiae.
Mrs. Hall	1	Hawk Moth	

Donor.	No. of Speci- mens.	Common Name.	Scientific Name.

APPENDIX VI.

EXCHANGES.

Specimens received.	Specimens forwarded.
Mr. L. L. Allen. (30.)	Mammal:—1 species—1 specimen.
Free Industrial Museum, Albury. (21.)	Birds:—48 species—61 specimens.
Drawings of Plates for "Records."	Mr. G. H. Barrow, Sydney. (29.) Working material.
Mollusca:—4 species—7 specimens.	Mr. W. T. Bednall, Adelaide. (35.) Mollusca:—3 species—6 specimens.
Minerals:—3 specimens.	Mr. Czisz, Sydney. (49.) Minerals:—1 specimen.
Mollusca:—10 species—26 specimens.	Mr. F. L. Billinghurst, Castlemaine. (40.) Book.
Mammals:—2 species—10 specimens.	Mr. O. Le Bon, Sydney. (28, 31.) Birds:—24 species—38 specimens.
Birds:—2 species—27 specimens.	Mr. J. Brady, Cape Town. (6.) Insects:—92 species—176 specimens.
Coleoptera, received in 1891.	Rev. Bro. Claudius, Marist Brothers School, Parramatta. (36.) Minerals:—22 specimens.
Ethnological:—1 specimen.	Mr. S. H. Drew, Wanganui, N.Z. (20.) Birds:—8 species—10 specimens.
Do 1 cast.	Mammals:—1 species—1 specimen.
	Ethnological:—11 specimens.

Specimens received.	Specimens forwarded.
	Mr. W. D. Filmer, Sydney. (39.)
Birds' Nests, Eggs, and Young:—3 species—7 specimens.	Books.
Insect and Arachnid Nests:—41 specimens.	Hunterian Museum, London. (8.)
	Plants containing Ants:—Several specimens.
	Skeleton:—1 species—1 specimen.
	Imperial Japanese Government. (12.)
	Birds:—80 species—133 specimens.
	Mollusca:—54 species—157 specimens.
	Fishes:—3 species—3 specimens.
	Mr. S. W. Jackson, Grafton. (42.)
Birds Eggs:—1 species—4 specimens.	Birds Eggs:—3 species—9 specimens.
	K. Mus., Dresden. (19.)
	Bird:—1 species—1 specimen.
	Mr. A. M. Lea, Sydney. (13.)
Insects received in 1892.	Insects:—50 species—85 specimens.
	Prof. Ray Lankester, Oxford. (14.)
	Echinodermata:—1 species—3 specimens.
	Museo de La Plata. (10.)
Fossils:—8 species—11 specimens.	Birds:—84 species—123 specimens.
Skeletons:—16 species—16 specimens.	Ossiferous débris.
Cast:—1 species—1 specimen.	
Birds:—12 species—15 specimens.	
	Nat. Mus., Lubeck. (18.)
	Books.
Books.	Dr. Paul Pelseneer, Gand. (43.)
	Mollusca:—1 species—2 specimens.
Mollusca:—41 species—239 specimens.	Mr. John Ponsonby, London. (17.)
	Mollusca:—44 species—236 specimens.
Lepidoptera:—63 species—160 specimens.	Mr. S. A. Peal, Assam. (38.)
	Ethnological:—3 specimens.
	Royal Zoological Museum, Florence. (15.)
	Fishes:—1 species—2 specimens.
	Ethnological:—5 casts of specimens.
Mr. H. de Saussure, Neuchatel. (25.)	
Insects:—34 species—46 specimens.	Insects:—28 species—28 specimens.
Do 40 do 48 do	
Birds Egg:—1 species—1 specimen.	Mr. D. Le Souef, Melbourne. (47.)
	Birds:—3 species—5 specimens.
Bird:—1 species—1 specimen.	Technological Museum, Sydney. (37.)
	Bird:—1 species—1 specimen.
	Tasmanian Museum, Hobart.
Mammals:—4 species—8 specimens.	
Skeletons:—2 species—4 specimens.	
	U. S. National Museum, Washington. (5.)
Fishes:—2 species—2 specimens.	Birds:—4 species—7 specimens.
Echinodermata:—12 species—21 specimens.	Echinodermata:—44 species—126 specimens.
	University of Sydney. (22, 45.)
	Mammals:—2 species—2 specimens.
	Fishes:—1 species—1 specimen.
	Miscellaneous:—7 species—7 specimens.
	Casts of Heads:—19.
Mollusca:—4 species—12 specimens.	Dr. J. C. Verco, Adelaide. (41.)
	Book.
Birds:—3 species—4 specimens.	Mr. Jas. Wylie, Lithgow. (16.)
	Bird:—1 species—1 specimen.
Birds, Nests, and Eggs:—5 species—8 specimens.	Mr. R. Whittell. (48.)
	Zoological Society, London. (50.)
	Mammals:—1 species—2 specimens.
	Birds:—2 species—2 specimens.
	Reptiles:—2 species—3 specimens.
Birds:—15 species—44 specimens.	Mr. A. Lehmert, Sydney. (24.)
Mammals:—1 species—1 specimen.	Birds:—29 species—29 specimens.
N.S.W. Commissioners for the World's Columbian Exposition at Chicago, Sydney.	Casts of Fossils:—2 species—15 specimens

APPENDIX VII.

ADDITIONS TO THE LIBRARY.

Reg. No.	Book.	How acquired.
6201	MANCHESTER Literary and Philosophical Society. Memoirs and Proceedings. (Fourth Series.) Vol. VII. 1 vol. D. 8vo. Manchester, 1893.	Presented.
6202	SCOTTISH Geographical Magazine. Vol. VIII, No. 10 (Oct., 1892). Vol. IX (1893). 1 vol.	do
6203	ROYAL Physical Society of Edinburgh. Proceedings. Vol. XI, 1890-92. 1 vol. D.	Edinburgh, 1893.
6204	LEEDS Philosophical and Literary Society. Annual Reports for 1889-90, 90-91, 91-92, 92-3. 1 vol. R. 8vo.	Leeds, 1890-93.
6205	NATURAL History Society of Glasgow. Proceedings and Transactions. Vol. III. Parts 2 and 3 (1889-92). 1 vol. D. 8vo.	Glasgow, 1892.
6206	OXFORD University Museum. Catalogue of Books added to the Radcliff Library, 1892. 1 vol. D. 4to.	Oxford, 1893.
6207	NATURAL History Transactions of Northumberland, Durham, and Newcastle-upon-Tyne. Vol. XI. Part I. 1 vol. R. 8vo.	Newcastle-upon-Tyne, 1892.
6208	MANCHESTER Museum—Owen's College Report, 1889-90. Museum Handbooks: Outline Classification of the Vegetable Kingdom (1892); by F. E. Weiss. Outline Classification of the Animal Kingdom. Second edition. A. M. Marshall (1892). Catalogue of the Types and Figured Specimens in the Geological Department. Herbert Bolton (1893); in 1 vol. D. 8vo.	Manchester, 1890-3.
6209	LIVERPOOL MARINE BIOLOGICAL COMMITTEE— Fourth Annual Report of the L. M. B. Station on Puffin Island; by W. A. Herdman. Fifth do do do Sixth Annual Report of the L. M. B. C. and their Biological Station at Port Erin; by W. A. Herdman. 1 vol. D. 8vo.	Liverpool, 1891-93.
6211	YORKSHIRE NATURALISTS' UNION TRANSACTIONS— Parts I to XVIII. Vol. I. Wrappers of Parts 1-18. Appendices Meteorology of Bradford; by John M'Landsborough and Alfred S. Preston, for 1885, 1886, 1887, 1888, 1889, 1890. Reprints of Excursion Circulars. Proceedings of 25th to 29th Annual Meetings (1887-1890).	do
6212	SER. B. Vertebrata. The Birds of Yorkshire; by Wm. Eagle Clarke; pp. 1-80. 1878-86.	do
6213	SER. C. Invertebrata. Annotated List of the Land and Fresh Water Mollusca of Yorkshire; by W. Nelson and J. W. Taylor. 1878, 1883, 1885, 1886, 1891; pp. 1-80.	do
6214	SER. D. Articulata. Vol. I. Yorkshire Macro-Lepidoptera in 1877-80; by G. T. Porritt; pp. 1-10, 71-91. Yorkshire Micro-Lepidoptera in 1877; by Wm. Prest; pp. 11-16. Yorkshire Hemiptera-Homoptera in 1877; by S. L. Mosley; pp. 17, 18. Yorkshire Diptera in 1877; by S. L. Mosley; pp. 19-22. Yorkshire Hymenoptera, 1877-78; by Wm. Denison Roe-buck; pp. 23-67. Yorkshire Ichneumonidæ and Braconidæ, 1878; by S. D. Bairstow; pp. 68-70. Yorkshire Hymenoptera, 1879-81; by S. D. Bairstow, W. Denison Roe-buck, and Thos. Wilson; pp. 92-112. On some Probable Causes of a Tendency to Melanic Variation in Lepidoptera of High Latitudes; by Rt. Hon. Lord Walsingham, 1885; pp. 113-140.	do
6215	Ser. D. Articulata. Vol. II. List of Yorkshire Lepidoptera; by George T. Porritt, 1883-84-86.	do
6216	Ser. D. Articulata. Vol. III. List of the Coleoptera of Yorkshire; by Rev. W. C. Oley; pp. 1-16, 48-64. 1886-88-91.	do

Reg. No.	Book.	How acquired.
YORKSHIRE NATURALISTS' UNION TRANSACTIONS—continued.		
6217	Ser. E. Botany. Reports of the Botanical Section and Reports on Yorkshire Botany for 1877–78, 79, 80, 83, 84, 85, 88; pp. 1–8, 10–110, 110–123, 203–208, 267–280. The Moss Flora of the East Riding; by H. Franklin Parsons, 1879–82; pp. 51–61. Liverworts (Hepaticæ) of the East Riding; by Richard Spence, 1882; pp. 62, 63. The Flora of Ripon and Neighbourhood; by Rev. H. H. Slater, 1884–85; pp. 125–184. The Fathers of Yorkshire Botany; by John Gilbert Baker, 1885; pp. 185–201. List of Yorkshire Fungi; by George Massie, 1886; pp. 206–224. The Flora of Dewsbury and Neighbourhood; by P. Fox Lee, 1888–91; pp. 225–264.	Presented.
6218	North Yorkshire: Studies of its Botany, Geology, Climate, and Physical Geology; by John Gilbert Baker, 1888–92 (second edition); pp. 1–400.	do
6219	YORKSHIRE Carboniferous Flora; by Robert Kidston, 1890–93. In 9 vols. Svo.	Leeds, 1878–93.
6220	MUSEUM of Comparative Zoology at Harvard Zoology. Memoirs. Vol. XIV:— No. 1. Part II. I. Studies from the Newport Marine Laboratory. XVI. The Development of Osseous Fishes. II Part I; by Alex. Agassiz and C. O. Whitman. (1889.) No. 2. The Discoboli; by S. Garman. (1892.) No. 3. Reports on the Results of Dredging under the Supervision of Alexander Agassiz, 1877–80, by the U. S. Steamer "Blake." XXXIII. Description des Crustacés de la Famille des Paguriens rencontrés pendant l'Expedition; par Alphonse Milne-Edwards et E. L. Browne. (1893.) 1 vol. R. 4to.	do
6221	Bulletin. Vol. XXIV. 1 vol. R. Svo.	Cambridge, U.S.A., 1889–93.
6222	NEW YORK Academy of Science:— Annals. Vol. V, 1889–91.	Cambridge, U.S.A., 1893.
6223	" VI, 1891–92.	do
6224	" VIII, 1893. 3 vols. R. Svo.	do
6225	UNITED States National Museum Bulletins:— No. 38. Contribution towards a Monograph of the Insects of the Lepidopterous Family Noctuidæ, of North America. Revision of the Genus Agrotis; by John B. Smith. (1890.) No. 39. Directions for Collecting, &c. (1891–92.) 6226	New York, 1889–93.
	No. 40. Bibliographies of American Naturalists. IV. George N. Lawrence, 1844–91; by L. S. Foster. (1892.) No. 41. Bibliographies of American Naturalists. V. Charles Giraud; by G. Brown Goode. (1891.) No. 42. Preliminary Descriptive Catalogue of the Systematic Collections in Economic Geology and Metallurgy; by Frederick P. Deney. (1891.) 2 vols. R. Svo.	do
6227	UNITED States Geological Survey Bulletin:— No. 82 (1891.) 83 (1891.)	Washington, 1890–92.
6228	" 84 (1892.) 85 (1892.)	do

APPENDIX VIII.
PUBLICATIONS OF THE AUSTRALIAN MUSEUM, DECEMBER, 1893.

I.—CATALOGUES.

1. Catalogue of the Specimens of Natural History and Miscellaneous Curiosities in the Australian Museum, by G. Bennett. 1837. 8vo. pp. 71. (Out of print.)
2. Catalogue of Mammalia in the Collection of the Australian Museum, by G. Krefft. 1864. 12mo. pp. 133. (Out of print.)
3. Catalogue of the Minerals and Rocks in the Collection of the Australian Museum, by G. Krefft. 1873. 8vo. pp. xvii-115. (Out of print.)
4. Catalogue of the Australian Birds in the Australian Museum, by E. P. Ramsay. Part I, Accipitres, 1876. 8vo. pp. viii-64, and Supplement, 1890. Part II, Striges, 1890. 8vo. pp. 35. Part III, Psittaci. 1891. 8vo. pp. viii-110.
5. Catalogue of the Australian Stalk and Sessile-eyed Crustacea, by W. A. Haswell. 1882. 8vo. pp. xxiv-324, with 4 plates.
6. Catalogue of the Library of the Australian Museum. 1883. 8vo. pp. 1878. Wrapper, with two supplements. (Out of print.) New edition. Part III, Pamphlets.
7. Catalogue of a Collection of Fossils in the Australian Museum, with Introductory Notes, by F. Ratte. 1883. 8vo. pp. xxviii-160.
8. Catalogue of the Australian Hydrozoophytes, by W. M. Bale. 1884. 8vo. pp. 198, with plates.
9. Descriptive Catalogue of the General Collection of Minerals in the Australian Museum, by F. Ratte. 1885. 8vo. pp. 221, with a plate.
10. Catalogue of Echinodermata in the Australian Museum, by E. P. Ramsay. Part I, Echini. 1885. 2nd edition, 1890. 8vo. pp. viii-54, with 5 plates.
11. Descriptive Catalogue of the Medusæ of the Australian Seas. Part I, Scyphomedusæ. Part II, Hydromedusæ, by R. von Lendenfeld. 1887. 8vo. pp. 32 and 49.
12. Descriptive Catalogue of the Nest and Eggs of the Australian Birds, by A. J. North. 1889. 8vo. pp. iv, v—407, with 21 plates.
13. Descriptive Catalogue of the Sponges in the Australian Museum, by R. von Lendenfeld. 1888. 8vo. pp. xiv-260, with 12 plates.
14. Catalogue of the Fishes in the Australian Museum. Part I, Palæichthyan Fishes, by J. Douglas Ogilby. 1888. 8vo. pp. 34.
15. Catalogue of the Marine Shells of Australia and Tasmania, by J. Brazier. Part I, Cephalopoda, 1892. 8vo. pp. 20. Part II, Pteropoda, 1892. 8vo. pp. 22. Part III, Gasteropoda (Murex), 1893. 8vo. pp. 32.
16. Catalogue of Australian Mammals, with Introductory Notes on General Mammalogy, by J. Douglas Ogilby, 1892. 8vo. pp. xvi-144.

II.—MONOGRAPHS.

1. Australian Lepidoptera and their Transformations, by the late A. W. Scott, with Illustrations by his daughters, Mrs. Morgan and Mrs. Forde. Edited and revised by A. S. Olliff and Mrs. Forde. Vol. II, Parts 1, 2, 3, and 4.

III.—MEMOIRS.

1. History and Description of the Skeleton of a new Sperm Whale in the Australian Museum, by W. S. Wall. 1851. 8vo. pp. 66, with plates. Reprint 1887.
2. Lord Howe Island: its Zoology, Geology, and Physical Characters. 1889. 8vo. pp. viii-132, with 10 plates.

IV.—GUIDES.

1. Guide to the Australian Fossil Remains in the Australian Museum. 1870. 8vo. (Out of print.)
2. Guide to the Contents of the Australian Museum. 1883. 8vo. pp. iv-56. (Out of print.)
3. Guide to the Contents of the Australian Museum. 1890. 8vo. pp. 156.

V.—MISCELLANEOUS PUBLICATIONS.

1. List of old Documents and Relics in the Australian Museum. 1884. Reprinted with additions, 1890. 8vo. pp. 4.
2. Descriptive List of Aboriginal Weapons, Implements, &c., from the Darling and Lachlan Rivers, by K. H. Bennett, F.L.S. 1887. 8vo. pp. 8. (Out of print.)
3. Notes for Collectors. 1887. 8vo. pp. 43.
4. Hints for Collectors of Geological and Mineralogical Specimens, by F. Ratte, pp. 26, with a plate.
5. Hints for the Preservation of Specimens of Natural History, by E. P. Ramsay, 1891. 4th Edition, pp. 32.

VI.—RECORDS.

- Records of the Australian Museum, Vol. I. 8vo. pp. 202. 30 plates.
 II. Nos. 1 to 5, pp. 84. 17 plates.

IN PREPARATION.

Catalogues of Reptiles, Batrachia, Fishes, &c., by J. Douglas Ogilby.

Catalogue of Birds. Part V, by E. P. Ramsay.

Catalogue of Tunicata, by Prof. Herdman, Liverpool, England.

Australian Lepidoptera and their Transformations. Vol. II, Part 5.

Records, periodically.

May be obtained from the Attendants at the Museum, or from Messrs. Angus and Robertson, Castlereagh-street, Sydney; Messrs. Turner and Henderson, Hunter-street, Sydney; Messrs. E. A. Petherick and Co., George-street, Sydney; Messrs. Melville, Mullen, and Slade, Melbourne; Messrs. Kegan, Paul, Trench, Trübner and Co., London.

[Exchanges of Serials, Works, Reports, and other Publications are earnestly solicited on behalf of the Museum Library.]
